

OFFER FOR A POSTDOC POSITION

We are proposing one job offer for one year, at post-doc level, in the framework of the French National Agency for Research - “ANR Galois”, centered on the project *Stokes phenomena, renormalisation, Galois theories*.

Place : École Normale Supérieure, 45 rue d’Ulm, Paris, France.

Period : October 1st, 2007 – September 30th, 2008.

This project is represented in Paris by Yves André (ENS) and David Sauzin (Observatoire de Paris-IMCCE).

Research themes :

- differential, or motivic, or Grothendieck-Teichmüller Galois theory.
- arithmetic properties of periods of algebraic varieties.
- resurgence (alien calculus, Gevrey asymptotic analysis).

Application : Applications should contain a CV and a motivation letter and be sent not later than January 17th 2007 by e-mail to

Y. André, yves.andre@ens.fr

and

D. Sauzin, sauzin@imcce.fr

The final decision will be disclosed at the end of January 2007.

Paris, January 9th, 2007.
