

ANALYSIS ON METRIC SPACES AND QUASI- CONFORMAL STRUC- TURES

September 14–19, 2009

Piotr Hajłasz: Sobolev mappings
between manifolds and metric spaces

Pekka Koskela: Planar mappings
of finite distortion

Grzegorz Świątek: Applications
of Quasiconformal Maps
in Complex Dynamics

Xavier Tolsa: The Cauchy transform,
Menger curvature, and analytic capacity

Michel Zinsmeister:
Planar growth processes
