Miniworkshop
"Mass Transportation and Related Fields"

November 17, 2001
Department of Mathematics, University of Pisa - Aula Magna

15.30 – 16.30   Ilaria Fragalà (Politecnico di Milano)
"On geometric inequalities for log-concave functions"

16.30 – 17.30   Guillaume Carlier (Paris Dauphine)
"From discrete to continuous models of traffic congestion"

17.30 – 17.45   break

17.45 – 18.45   Filippo Santambrogio (Paris Sud)
"Density constrained crowd motion, with and without strategies"
