

Aspects of Membrane Dynamics

Organized by: J. Arnlind (Linköping) and J. Hoppe (KTH)

Progress in the fascinating field of higher-dimensional minimal surfaces has been slow, due to the intrinsic non-linearity and immense complexness. The aim of this conference is to present the state of the art, and to enhance the communication between leading experts of various aspects of the problem.

June 13-17, 2016
Stockholm

Speakers include:

Minos Axenides
Dorothea Bahns
Giovanni Bellettini
David Berenstein
Aksel Bergfeldt
Martin Bordemann
Simon Brendle
Per Bäck
Jaigyoung Choe

Bergfinnur Durhuus
Jens Eggers
Emmanuel Floratos
Maria Garcia del Moral
Gerhard Huisken
Goro Ishiki
Mariusz Hynek
Hojoo Lee
Georgios Linardopoulos
Douglas Lundholm

Vincent Moncrief
Luc Nguyen
Denjoe O'Connor
Alvaro Restuccia
Keti Tenenblat
Gang Tian
Maciej Trzetrzelewski
Teoman Turgut
Alexander Zheltukhin
