

# Nonlinear evolution equations and control: celebrating Alberto's 70's birthday

June, 15-19, 2026

The workshop aims at presenting fundamental theoretical advances and most promising research directions of evolutionary PDEs and control theory, with a particular focus on the deep and increasingly fruitful interaction between hyperbolic PDEs, geometric measure theory, variational methods and control. On this occasion we celebrate the 70th birthday of Alberto Bressan. The contributions of Alberto Bressan in such fields have been fundamental, often reshaping these research areas by solving fundamental open problems, introducing completely new techniques and generating new research directions. This is part of the activities of the ERC project "Regularity and singularity of solutions to geometric variational problems".

**The conference will start on June 15 at 9:00 and will end on June 19 at 13:00**

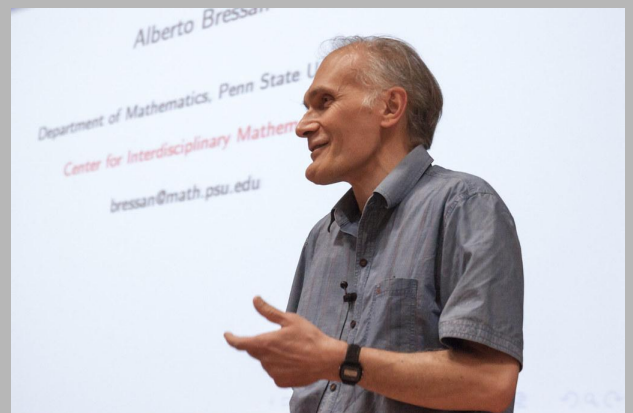

Important: Registration is mandatory with deadline on June 7

There will be a poster session (deadline for submission of title and abstract: May 31).

## Speakers

**Debora Amadori** (University of L'Aquila, Italy)  
**Piermarco Cannarsa** (University of Roma "Tor Vergata", Italy)  
**Maria Teresa Chiri** (Queen's University, Canada)  
**Giuseppe M. Coclite** (Polytechnic University of Bari, Italy)  
**Giovanni Colombo** (University of Padova)  
**Rinaldo M. Colombo** (University of Brescia, Italy)  
**Adrian Constantin** (University of Vienna, Austria)  
**Jean-Michel Coron** (Sorbonne Université-LJLL, Paris, France)  
**Graziano Crasta** ("Sapienza", University of Roma, Italy)  
**Constantine Dafermos** (Brown University, USA)  
**Carlotta Donadello** (Université M. e L. Pasteur, Besançon, France)  
**Olivier Glass** (Université Dauphine-PSL, Paris, France)  
**Paola Goatin** (Université Côte d'Azur, INRIA, Sophia Antipolis, France)  
**Graziano Guerra** (University of Milano-Bicocca, Italy)  
**Helge Holden** (NTNU, Trondheim, Norway)  
**Marta Lewicka** (University of Pittsburgh, USA)  
**Pierangelo Marcati** (GSSI, L'Aquila, Italy)  
**Elsa M. Marchini** (Politecnico di Milano, Italy)  
**Andrea Marson** (University of Padova)  
**Marco Mazzola** (Sorbonne Université, Paris, France)  
**Tien Khai Nguyen** (North Carolina State University, USA)  
**Michele Palladino** (University of L'Aquila, Italy)  
**Benedetto Piccoli** (Rutgers University, Camden, USA)  
**Franco Rampazzo** (University of Padova)  
**Denis Serre** (Ecole Normale Supérieure de Lyon, France)  
**Wen Shen** (Penn State University, USA)  
**Richard Vinter** (Imperial College, London, UK)

## Organizing Committee:

**Fabio Ancona** (University of Padova)  
**Stefano Bianchini** (SISSA, Trieste)  
**Laura Caravenna** (University of Padova)  
**Guido De Philippis** (University of Padova)  
**Donatella Donatelli** (University of L'Aquila)  
**Elio Marconi** (University of Padova)  
**Luca Talamini** (SISSA, Trieste)
